Points to keep in mind

Istinjaa

- Many Muslims have become lax regarding Istinjaa.
- Through interaction with maktab students, we find that many are also unmindful regarding this. Recently, a Grade 10 student, when asked by the Ustaadh, revealed that he does not make Istinjaa.
- This constant state of impurity has a direct impact on the child.
- Students, therefore, find it difficult to recite the Quraan Kareem, memorize Surahs and Duas and grasp the lesson taught to them.
- Shaytaan capitalizes on this state of impurity by whispering evil thoughts into the child's mind. This leads to satanism, pornography, shamelessness etc.
- Our responsibility as Ustaadhs is to continuously emphasize the importance of Istinjaa. This will be done by mentioning the virtues of making Istinjaa and explaining the punishments for neglecting it. Students should also regularly be asked regarding Istinjaa.

Sayyiduna Abu Hurairah رضي الله عنه narrates;

“Nabi ﷺ said; “Most of the torment of the grave is [due to being careless with the droplets] of urine”

(Sunan Ibn Majah, Hadith: 348)

Ta'leem

Points to keep in mind

1. Read one Hadith daily from Virtues of Qurān. This will motivate students to read Qurān at home and will eliminate the problem of students not preparing their Sabaq at home.
2. On alternate days, read one hadith from Stories of Sahabah Radhiyallaahu Anhum, Virtues of Salāh and Virtues of Zikr. This will motivate students to:
 - a) have honour for Sahabah Radhiyallaahu Anhum as well as protect them from getting influenced by deviated sects like the shia;
 - b) perform Salāh and;
 - c) make Zikr.
3. Read from Virtues of Durood (Hadith and a story) every Thursday to motivate students to recite abundant Durood.
