

Proposed Amendment to The National Healthcare Act

Urgent!!! Deadline 15 April 2022

Corruption has spread throughout the land and sea as a result of 'the actions of people'. This is so that (Allāh Ta'āla) may cause them to taste the consequences of some of their deeds so that they may return (to the right path)." (Sūrah Ar-Rūm, 41).

All conditions are from Allāh Ta'āla. As a result of our actions, regulations that will potentially affect our Dīn and general freedom are being proposed.

If these amendments are passed:

- a) Masājid may be forced to close again in the event of any perceived outbreak of a virus.
- b) The number of Musallīs for Salāh in Jamāt will permanently be restricted.
- c) Face-masks and social distancing will become permanent, thus affecting the Sunnah method of our Salāh.
- d) Any person who sneezes or coughs in a masjid and is suspected of being infected can potentially be reported as a 'risk' and referred for testing and forced treatment. All Musallis who were in contact with him will face the same fate.
- e) Free access to the Masjid, Eid-Gāh, Ijtimās or any Dīnī programme may be restricted to the vaccinated only.
- f) The Sunnah method of washing and shrouding our deceased may be disrupted again at the discretion of the State. The painful memory will still linger for those who lost loved ones and were deprived of affording them their last rights according to Sunnah.
- g) The government will have the authority to enforce any medication or vaccine whether Halāl or Harām, harmful or beneficial. No person will be held accountable for any harmful consequences.
- h) We will effectively live under a State of Disaster permanently.
