

Allah Ta'ālā captured the entire system of the disbelievers in the following Āyah:

"Let them eat and enjoy themselves and let them be diverted by false hope, for they shall soon come to know" (Al-Hijr, 3)

The life of a disbeliever is:

- eat
- enjoy
- have lengthy aspirations

Aren't we of the same mindset? What is our mindset? Are our minds any different to that of the kāfir?
