

Prioritising the needs of the Ummah

Mr Siddiq Baandwi Rahimahullah came to know that people in the villages were being converted to hinduism.

After finding out, he decided to resign from teaching Bukhari shareef and went village to village explaining to people and trying to bring them back into Islam!

In an era where the Imaan of many is being affected by modernism, atheism and feminism, what are we doing to save the Imaan of the Ummah?
